MI103 DISCOVER TIERRA DEL FUEGO IN WINTER

Day 1: Arrival and reception at Ushuaia airport. Transfer to the assigned hotel.

Day 2: Morning: Navigation "Isla de los Lobos". Transfer from the hotel to the local port for boarding and subsequent navigation through the mythical Beagle Channel aboard a catamaran. During the navigation, you will be able to enjoy magnificent views of the sea and mountains while watching sea birds and marine mammals, all of them permanent residents of the southern seas.

Duration: 2 hours and 30 minutes

Free time in the city. Optional lunch.

Afternoon: Excursion to **Tierra del Fuego National Park**. Transfer in excursion to the Park. This natural area stands out for being the only place in Argentina where the Andean-Patagonian-Fueguino forest meets the sea (coastal area of the Beagle Channel). To enjoy this natural experience to the fullest, besides the time for photos, the guide will interpret the Fuegian ecosystem with its flora and fauna.

Duration: 4 hours.

Total number of kilometers to be covered: 50

Day 3: Excursion to **Lago Escondido with Snowshoes**. (Full Day): Transfer in excursion from Ushuaia in northeast direction by RN 3 until arriving to the area of Lago Escondido. During the trip, in addition to seeing the winter centers, we will be discovering all the mountain landscape that Tierra del Fuego offers in winter. Wide valleys full of peat bogs, mountain ranges adorned with native forest and high glaciers. All this natural scenery under a white mantle, special for photos.

Arriving at the Garibaldi Pass, located at 430 meters above sea level, we will equip ourselves with snowshoes and poles to begin our 1 ½ hour hike to discover an area of pristine nature and see how it adapts to winter temperatures.
